VOCABULARY LOOK	STUDENT HANDOUT
------------------------	------------------------

Here is some vocabulary which might help you in answering the questions and in your speaking:

a makeover careful vs careless careless vs carefree to/a cure bewilderment

Some people with cancer are interviewed and later get a makeover.

Q1 Can you say in your own words what these people have been expressing?

Q2 How do you think they'll be made up? (What will be done?)

Q3 They will have to keep their eyes closed until the makeover is done. How do you think they will react when they see the results?

DISCUSS

- Compare with the others how right you were in your predictions.
- How did you feel during the video?
- Would you like such a surprise or 'volunteer' someone close to you to participate in something similar?
