In a few minutes you are going to have a conversation about some good and not-so-good things about your family. (You can invent them if you like.)

Think of what you would like to say while using some of the above phrasal verbs. Try writing out a few sentences to explore a bit while preparing for the conversation.

Here are a few more possible verbs to include:

- look like sb
- look after sb/st
- bring sb up
- take after sb
- take care of sb/st
- grow up

If you feel confident about these phrasal verbs, try using some of them in different verb tenses (past, present or future references using simple, continuous and perfect forms)

Another possibility for speaking is to talk about some good and not-so good things about school or your work.

Here are a few more possible verbs to include:

- take (st) over
- do st over
